

Bonus Terms and Conditions

1. General Provisions
2. Working with the Bonus
3. Funds Withdrawal from the Account with the Active Bonus
4. Examples of Calculation
5. Miscellaneous

1. General Provisions

- 1.1. The Classic Bonus is a deposit bonus, which is a percentage of the deposited sum and can be received when the client deposits to his account via automatic system in his Client's Area.
- 1.2. The bonus will be automatically added based on the deposit amount: 50%, 100% or 150%.
- 1.3. Deposit \$0-19 - 0% Bonus
Deposit \$20-99 - 50% Bonus of deposit amount
Deposit \$100-499 - 100% Bonus of deposit amount
Deposit >\$500 - 150% Bonus of deposit amount up to \$10,000.
- 1.4. Max Bonus is \$9,000 (even if a deposit is \$10,000).
- 1.5. The bonus can be received when you deposit funds to selected trading accounts.
- 1.6. The bonus is not transferable and is solely limited to the recipient of this offer.
- 1.7. The bonus program implies no restrictions to the total amount of bonus accounts and bonus operations.
- 1.8. The bonus is not withdrawable.
- 1.9. There are no limitations to the affiliate commissions for bonus accounts.

2. Working with the Bonus

- 2.1. In case the Client has active bonuses on his account, all of his funds are divided into two parts: the Client's own funds and the bonus funds. The Client's own funds consist of his deposits and withdrawals

(excluding bonuses) and the profit he receives when trading using these funds. The bonus amount is determined by the sum of all active bonuses on the Client's account.

- 2.2.** The Client's own funds can be used in trading without any limitations. The bonus funds can't be used during a 'drawdown' and they will be removed if the percentage of own funds (x) is less than 25% of equity, it is calculated by formula (A) $(1 - (\text{Bonus}/\text{Equity})) \times 100 < x\%$, equity is live and it includes bonus and own funds.

Example:

Scenario 1:

You deposited \$5,000 to your trading account and received the bonus of \$7,500 (150%). Your own funds are \$5,000, bonus is \$7,500 and your equity is \$12500. During your trading you have lost \$2,500, so your own funds (deposit+floating profit/loss) at the moment are \$2,500, bonus is \$7,500 and your equity is \$10000. The percentage of your own funds is 25% and the bonus is still valid.

Scenario 2:

You deposited \$5,000 to your trading account and received the bonus of \$7,500 (150%). Your own funds are \$5,000, bonus is \$7,500 and your equity is \$12500. During your trading you have lost \$100 more, resulting in a total \$2600. Your own funds are now \$2,400, bonus is \$7,500, your equity is \$9900. The percentage of your own funds **according to formula** (A) is 24,24%, which is less than 25%, thus the bonus will be canceled

3. Funds Withdrawal from the Account with the Active Bonus

- 3.1. The Client can withdraw from the account only the available profit, which is calculated based on free Margin on the account manually, according to the following formula:

<the profit available for withdrawal> = <free margin> - <the total sum of all active bonuses> - <the total sum of the deposits, which received bonuses> - <the total sum of net withdrawals>

Example:

You deposited \$5,000 to your trading account and received the bonus of \$7,500 (150%). Since that moment, your profit from closed transactions is \$250 (in case you do not have open positions on your account). According to the conditions of the bonus program, you can withdraw not more than \$250 (your profit) without canceling the Bonus.

- In case there are open positions on the account, free margin may differ from the account equity. All actions will be done manually and not automatically.

Please note that the most essential condition of the offer is the right of the Company to deny the Client the bonus or cancel all Bonus funds of the Client without giving any reasons and/or advance notice.

4. Examples of Calculation

- 4.1. Example of calculation of the sum available for withdrawal with one deposit and one bonus (cancellation of the bonus):

You deposited \$1,000 to your trading account and received the bonus of \$1500 (150%). The total account's equity is \$2,500. Then you

performed several trading operations and received a profit of \$500. If the requirements of the program are not fulfilled, the sum available for withdrawal will be \$1500.

4.2. Examples of Calculation of the sum available for withdrawal with one deposit and one bonus (profit is in the red, cancellation of the bonus):

You deposited \$1,000 to your trading account and received the bonus of \$1500 (150%). The total account balance is \$2,500. Right now, you cannot withdraw anything from your account.

5. Miscellaneous

- 5.1.** At all times, the Company reserves the right to amend, change or cancel this promotion without any prior notice to current or prospective promotion participants.
- 5.2.** If the Company suspects that a promotion participant has abused or attempted to abuse a promotion or otherwise acted with a lack of good faith towards the Company, the Company reserves the right to deny, withhold, cancel or withdraw from that participant the credit bonus, and, if necessary, to cancel any terms and conditions of this promotion and client agreement with respect to that promotion participant, either temporarily or permanently, or to terminate that participant's access to the services and/or block that participant's accounts.
- 5.3.** The bonus funds are considered to be the property of the Company.
- 5.4.** Most deposit instruments are subject to a commission or fee by a third party. It is a client's responsibility to provide sufficient deposit levels, excluding the commission, in order to be eligible for an appropriate bonus category.
- 5.5.** Trading in Forex and CFD markets entails significant risk. Participation in the Forex and CFD markets should not be undertaken unless the Trader is fully aware of and understands the risks involved in trading.

Participation in this promotion should not be a motivating factor when considering participation in the forex and CFD markets.

- 5.6.** It is the responsibility of the client to ensure that all applicable taxes and fees on bonuses in their country are paid.
- 5.7.** In case of any ambiguity or conflict or inconsistency between different transactions of these Terms and Conditions, the English version shall prevail.
- 5.8.** In case of additional questions or clarifications related to the Bonus Promotion, you may contact our Customer Support Department.
